DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/12/2006 has been entered.

Allowable Subject Matter

Claims 1-2, 16, 33-46, 48-79 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's claim amendment filed 7/12/2006 has been entered, and all pending claims have been carefully reconsidered in view of the prior art of record. Applicant's arguments for patentability of pending claims (filed 7/12/2006) have also been carefully studied by the examiner.

Applicant's arguments for patentability are convincing in view of the claim amendment because none of the prior art fairly teaches or suggests an optical fiber cable having, *inter alia*, modulus of elasticity of the outer sheathing being less than the modulus of elasticity of the central core, and wherein the layer of optical fibers is mechanically coupled to the central reinforcing element such that the fibers are at least partially impressed in the outer sheathing as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
